Case-Mix Proficiency. ICD-10 Coding proficiency for billing and compliance. Director of Nursing Services for 100 bed LTC facility. Expertise in operational assessments for post-acute care organizations..

Program Description:

Understanding the Federal Quality Measures for Nursing Facilities

...**Improving your facility outcomes to improve your 5 star rating.**

CMS has multiple quality oversight programs at the Federal Level to reduce hospitalizations, healthcare-acquired infections, and overall resource utilization. The programs also focus on staffing metrics, including weekend staffing and turnover, and the ever-expanding *5-star rating systems.

We will be discussing ALL federal quality oversight programs: QRP, VBP, 5-Star, and survey-specific measures

*The Five-Star Quality Rating System is a tool to help consumers select and compare skilled nursing care centers. Created by the Centers for Medicare & Medicaid Services (CMS) in 2008, the rating system uses information from Health Care Surveys (both standard and complaint), Quality Measures, and Staffing. The Care Compare website features the rating system. Today, the Five-Star Rating System has expanded beyond consumer use. Non-consumers, such as state regulators, health care insurers, lenders and investors, use Five Star to determine incentive payments, referral networks, and financial loans.

Date and Time: March 19, 2024,

Registration & Breakfast: 8:30am to 9:00am

Program: 9:00am to Noon

Location

Elizabeth Seton Residence
125 Oakland St,
Wellesley, MA 02481

Program Pricing

LTCFA Members: **\$150**

Non_Members: **\$200.**
